

PHANUMAT HONGPROM

About Me

A results-driven Full-stack Developer and Suranaree University of Technology graduate with hands-on experience in building enterprise-level applications. Proficient in JavaScript, Node.js, Vue.js, and Next.js, with a proven track record of developing scalable solutions—from a corporate recruitment portal to complex monitoring systems. Experienced in managing SQL/NoSQL databases and implementing Docker for streamlined deployment. I am passionate about writing clean, maintainable code and delivering user-centric applications that align with business goals.

SOFT SKILLS

- Communication & Technical Translation
- Analytical Problem Solving
- Adaptability & Growth Mindset
- Ownership & Responsibility

EXPERIENCE

Full-stack Developer

Smart Com Co.,Ltd.

May 2024 – Oct 2024

Silo Monitoring system:

- Refactored Node.js backend codebase, improving readability, maintainability, and performance.
- develop front-end and backend web application using next.js node.js and postgresql

Company Website:

- Developed a corporate website using Next.js.
- Built a News Management System and Admin Dashboard for streamlined content updates.
- Implemented responsive UI/UX designs to enhance brand digital presence.

Full-stack Developer (Internship)

VST ECS (Thailand) Co. Ltd.

Mar 2023 - Jun 2023

• Job Application Portal :

Re-engineered and design the corporate recruitment portal using Vue.js, Node.js (express.js), and MSSQL to enhance user experience. Integrated Microsoft Active Directory for secure centralized authentication. Containerized the application using Docker for deployment on On-Premises infrastructure.

• Employee Mental Health Assessment Website:

Developed a new mental health evaluation system from the ground up using Vue.js, Node.js (Express.js), and MSSQL. Focused on creating an intuitive UI and secure data handling for employee assessments. Conducted User Acceptance Testing (UAT) to refine workflows and ensure a seamless experience prior to final deployment.

Graduation Project

Aug 2022- Mar 2023

SUT Science Equipment Center Website

- Developed a comprehensive web platform for managing scientific equipment data and user services, focusing on database management and responsive UI design.
- **Tech stack**
 - next.js , MongoDB

EDUCATION

Bachelor's Degree in Digital Technology

Suranaree University of Technology / GPAX 3.21 / CEFR A2
